Tamil Nadu Government has launched Non-Invasive Ischemic Burden Reduction Program (NIBR-P) under a Public Private Partnership (PPP) in Government Medical College Hospitals with Vaso – Meditech Pvt Ltd

Chennai Feb 10th 2014. (Vaso-Meditech Pvt Ltd is an Exclusive distributor and Clinical support for EECF/ECP in India)

Tamilnadu Government along with Vaso-Meditech Pvt Ltd a private company which is pioneer in India in EECF service has launched a Non-Invasive Ischemic Burden Reduction Program (NIBR-P) under a Public Private Partnership agreement to bring non-invasive, cost effective, evidence based cardiology treatment close to needy cardiac patients across Tamilnadu. This new program is aimed to tackle the growing epidemic of cardio vascular disease and prepare the government infrastructure to handle the increase number of patients seeking the Government medical college hospitals for cardiac treatment for coronary artery disease.

Vaso-Meditech Pvt Ltd Launches, Continues Medical education program in TamilNadu state on Non-Invasive Option for Patient with recurrent angina and Heart Failure with special emphasis on Enhanced External Counter pulsation treatment in support of the Public private partnership established with Government of TamilNadu. The CME program will be focused to educate about the Non-Invasive Ischemic burden reduction program (NIBR-P) developed and pioneered by Madras Medical College Hospital Chennai approved by TamilNadu Government Chief Minister Comprehensive Insurance Scheme and reimbursed by United India Insurance.

The program director Prof and Head of the department of cardiology Dr.M.S.Ravi and colleges Dr.Meenaksi, Dr.Muthukmar, Dr.Swaminathan and former Prof & HOD of cardiology Dr.V.Dhandapani has completed treating 120 patients with intractable angina, Shortness of breath and who are utilizing the hospital resources to the

maximum by repeated cardiology OP visit and hospitalization. Patient completed the 35 days of EECp treatment under the Non-Invasive Ischemic reduction program has significant reduction in symptoms, reduced outpatient visit and reduced re hospitalization.

Speaking on the Program Prof Dr.M.S.Ravi said this will be an additional option other than medication, Angioplasty and Bypass surgery to the patients suffering from coronary artery disease. EECp is shown to be very effective in reducing the debilitating cardiac symptoms and repeat hospital visits. This program has improved our efficiency in reducing the overall burden of cardiovascular disease to individuals and the society. Based on our experience the Government is planning to expand the program to other Medical college hospitals across TamilNadu state.

Dr.S.Ramasamy EECp expert and director of Vaso-Meditech Pvt Ltd, who will be in charge of the program for all the Medical college Hospitals in TamilNadu Public private partnership model express his view that Non-Invasive Ischemic Burden Reduction Program (NIBR) successfully championed by Rajiv Gandhi Government General Hospital Chennai will be the first such program in India. This program will be focused in reducing the cardiac symptoms, repeat hospitalization, repeat visit to causality and improving the quality of life of the patients by non-invasive EECp treatment.

Currently the treatment program is available in Rajiv Gandhi Government Medical College Hospital, Coimbatore Medical college Hospital, K.M.Cherian Heart foundation, Chettinad Health city Hospital, Rohini Hospital Tanjavoure and K.G.Hospital Coimbatore. In the next 6 months Vaso-Meditech Pvt Ltd is planning to initiate 15 such program in private and government general hospital across India.
