Press Release Chennai Feb10th 2012. (Vaso-Meditech Pvt Ltd, exclusive distributor and clinical support for EECP in India).

Vaso-Meditech Pvt Ltd **Director Dr.S.Ramasamy** presented “*EECP therapy a holistic approach to Cardio vascular disease*” in Global Ayurveda festival held in Kerala Indian from 9-14th February. The meeting was attended by expert in Indian traditional medicine from all over India. Sri. Oommen Chandy Hon’ble Chief Minister of Kerala inaugurated the conference and assured the Government will continue its support to traditional Indian medical system for its health requirements. The conference was attended by 3000 ayurveda experts (Indian Traditional medicine).

In India Traditional Ayurveda approaches to cardiovascular health have become popular. Ayurveda is focused on prevention, treatment, care and comfort by natural way in a holistic approach. The treatment is combination of diet, exercise, awareness of environmental influences and the use of herbal remedies. Enhanced External Counterpulsation therapy presentation was invited in the conference for the first time as it is non-Invasive and getting increase acceptance in traditional ayurvedic practising physicians.

The treatment for cardio vascular disease was either invasive like bypass and Angioplasty or through medicine. EECP is a new treatment which utilizes the natural mechanism of our body to enhance our health. Hence it has no adverse effect which is experience in the traditional allopathic treatment.

Dr.S.Ramasamy Director of Chennai Heart Failure Clinic presenting EECP in Global Ayurveda festival.

EECP therapy is focused on two components of the cardio vascular disease, the vascular and the heart. Currently it’s the only treatment which has shown to improve your cardiac and vascular health. EECP when incorporated with Holistic approach in Ayurveda treatment it can give immense benefit to the patient in not only treating the symptoms but also treating the disease itself. All the risk factor which contribute the cardio vascular disease like, diabetes, hypertension, high cholesterol, mental stress, lack of exercise, obesity and sedentary life style affect your arterial system (vascular system) EECP when combine with Ayurvedic medicine, Yoga and Panchakarma will not only can help to improve the blood

supply to the heart and avoid bypass surgery and Angioplasty but will also restore your arterial or vascular health towards normal and arrest the progression of the disease commented Dr.S.Ramasamy in his lecture.
