

International EECP therapists Association in USA elected Dr.S.Ramasamy Director of Vaso-Meditech Pvt Ltd as its International Medical Director.

Press Release Chennai April 9th, 2010: Vaso-Meditech Exclusive distributor and Clinical support for Vasomedical EECP in India.

The International EECP Therapists Association (IETA) is a multidisciplinary organization of EECP Therapists, united with one professional voice to set and support standards of excellence in the delivery of External Counter pulsation.

IETA today has more than 375 members. Due to demand of EECP therapy by patients and doctors across the world IETA decided to set up International wing to conduct classes and certification course to the therapist. This will help the Hospitals and clinics to provide the treatment with efficient and knowledgeable staff. The Aim of the organization is to create professional therapist who were kept up to date on the development of EECP therapy and also to provide EECP to the patients safely and effectively.

IETA has elected Dr.S.Ramasamy the pioneer in bringing EECP therapy to India as its International Medical Director. Elections are held every three years for the Executive Board positions, and every two years for Board of Directors positions in conjunction with the IETA annual membership meeting. Election results are announced at the annual membership meeting.

Dr.S.Ramasamy said In Indian by end of 2010 will have around 100 certified EECP therapists. We are planning to conduct EECP therapist certification exam in all major cities. The training courses will be conducted in Chennai. We are also introducing advance stimulation software in EECP therapist course. This computer assisted advanced simulation software will create actual patient treatment arterial waveform so that therapist can able to adjust the inflation and deflation timing without having direct patient encounter. This software will greatly improve the understanding of therapist. This timing of inflation and deflation of the cuffs during cardiac cycle if done accurately can enhance the patient improvement and outcome significantly.

Education and increasing membership will continue outside USA. Join us! Help us help you achieve professional status & recognition.
