

K.M.Cherian Hospital presented paper on EECP effects in patients with reduced Heart function in SAARC Cardiology Society in Dhaka Bangladesh.

Press Release Chennai April 9th 2010. (Vaso-Meditech Pvt Ltd Exclusive distributor and clinical support for EECP in India)

Bangladesh 3rd April 2010: Vasomedical EECP® therapy clinical paper was presented in the prestigious SAARC Cardiology Society on April 3rd 2010 in Dhaka Bangladesh. K.M.Cherian Hospital one of the renowned cardiac centers in India presented its Abstract in SAARC cardiologist society. Dr.S.Ramasamy pioneer in EECP therapy in India and EECP consultant in K.M.Cherian Hospital presented the paper "Enhanced External Counter pulsation improves Myocardial Function and Exercise Tolerance in Severe Left Ventricular Dysfunction Patients Independent of Diabetes"

The oral presentation of the abstract was well received by cardiologist and cardiothoracic surgeon of SAARC countries. Dr.S.Ramasamy pointed out this study shows EECP not only improved exercise tolerance in patients with severe LV dysfunction with poor quality of Life but also can improve their myocardial contractility. This effect of EECP seems to be independent of diabetes.

Many clinical data published in various journals across the World is consistently showing positive effect of EECP therapy in patients with refractory Angina and Heart failure. The current study has shown patient with low heart function with severe shortness of breath and tendency to get fatigue with minimal exertion can be treated effectively.
