Press Release Chennai Sep 20th 2012. (Vaso-Meditech Pvt Ltd, exclusive distributor and clinical support for EECP in India)

EECP presented in World Congress Cardiology-2012 at Rajasthan, India

Congress venue with experts and organizers

Congress venue with Delegates

Vaso-Meditech Pvt Ltd: Vaso-Meditech Pvt Ltd participated in the World Congress Cardiology-2012 Inaugurated by His Excellency Governor of Tripura Dr. D.Y. Patil On Sept. 14th, 2012. Two major EECP presentations were done there. EECP is covered in detail in the Text Book of Cardiology: A Clinical & Historical Perspective published under the editorship of Dr. H.K. Chopra (India) & Dr. Navin C. Nanda (USA) Launched on the congress.

Dr. H.K. Chopra Chief Cardiologist, Moolchand Medcity & Former, Hon. Editor, Indian Heart Journal presented his data on EECP in his oration. He explained that improvement of clinical symptoms in patient undergoing 35 sessions of EECP therapy is due to Left Ventricular Relaxation and increased LV filling pressure which was assessed by 3D Echo. He further added Enhanced External Counterpulsation (EECP) is a promising and most powerful tool to enhance the blood flow in the Heart. EECP data has shown that 35 cycles of this simple non-invasive and is very effective to enhance the blood flow in various organs such as heart (after having heart attack,

angina, after angioplasty, bypass surgery, heart failure and Syndrome X (Micro Vascular Angina) patients. He mentioned the success of this treatment is up to the tune of 88 to 94 % which is sustained for at least 5 years.

Dr.H.K Chopra interview on EECp therapy can be viewed on:
